Snapshot

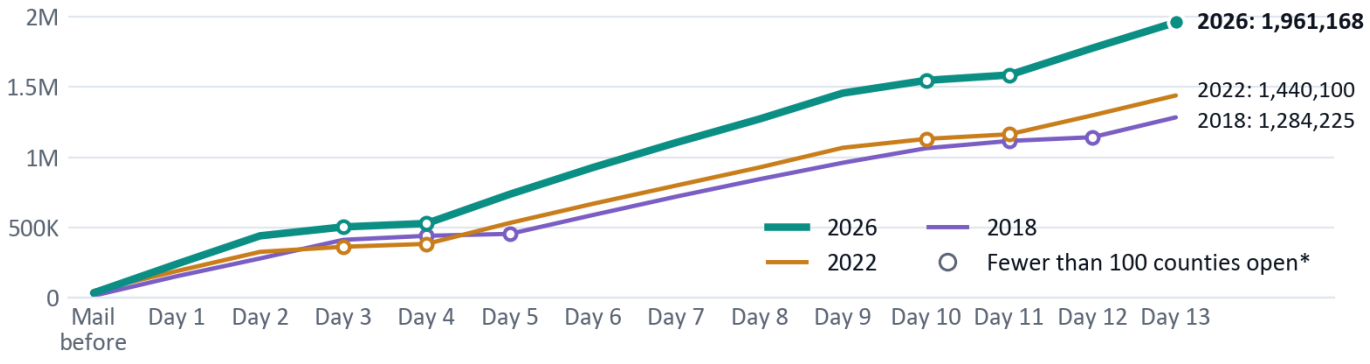

After 13 days of early voting, North Carolinians have cast 1,961,168 ballots in person and by mail, 36% more than at the same point in 2022. The Democratic turnout edge widened to 13.1 points on Tuesday, from 12.8 after Monday: 34.0% of registered Democrats have voted, against 20.9% of registered Republicans. At this point in 2022 the gap was 2.1. If the last four days run like 2022's, Republicans would need to out-vote Democrats by more than 260,000 on Election Day to erase their ballot lead, 46% more than in 2022 (177,807).

179,386 voted in person on Tuesday, 33% more than on 2022's thirteenth day of early voting (135,209). Republicans had their best day yet, 30.3% of the day's ballots, but still ran behind their own 2022 pace (33.6% on 2022's Tuesday) and behind Democrats (34.7%). Democrats' ballot lead now tops 300,000 (305,515).

Who is voting: the party mix, day by day

Each party's share of all ballots cast so far, this year against the same day in 2022. The last point shows 2022's full electorate, after Election Day.

Who is growing fastest since 2022, by race and age

Change in ballots from the same point in 2022. Teal bars are growing faster than the electorate as a whole. Race as registered with the State Board of Elections; Hispanic is any race.

Who is voting: party by how often they vote

Voters so far by party of registration and by their record in the last two general elections. Base: voted in both 2022 and 2024. Sporadic: voted in one of the two. Unlikely: new to the rolls, or voted in neither. Under each count: the share of that group's registered voters who have voted, and the same share at this point in 2022.

	BASE	SPORADIC	UNLIKELY

Base also takes in a voter who voted in the only one of the two elections they were registered for. Registered: the current voter file (7,886,545 registered); 2022 sorts the 2022 rolls the same way by the 2018 and 2020 elections. +N on Tuesday: ballots dated that day. Other parties (5,082 voters) are not shown.

The unaffiliated row, by the primary ballots they have taken

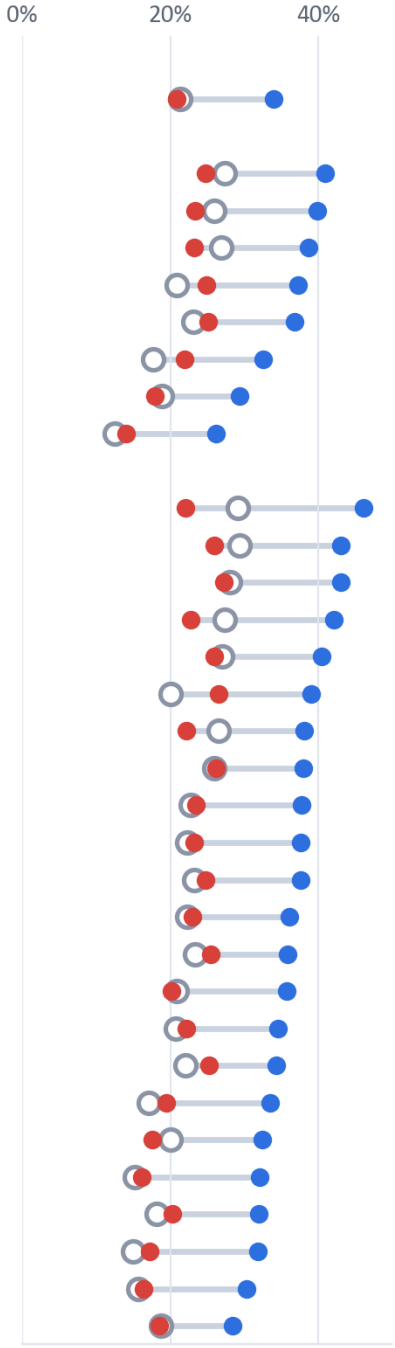

The 677,529 unaffiliated voters so far, sorted by which party's primary ballot they took in the five statewide primaries from 2018 to 2026.

Strong lean: at least two more of one party's primary ballots than the other's. Light lean: one primary ballot, one party. Mixed: both parties, no clear pattern. Tested on voters who later joined a party: strong lean named the right party 97% of the time, light lean about 92%.

Seats to watch: turnout by party

Every contested seat that leaned within 10 points either way in the 2024 statewide races. For each, the share of its registered Democrats (● blue), unaffiliated voters (○ grey) and Republicans (● red) who have voted so far. **This is turnout by party registration, not votes for a candidate and not a forecast.** Statewide, 34.0% of Democrats, 21.4% of unaffiliated voters and 20.9% of Republicans have voted. Democrats and Republicans are 13.1 points apart; at this point in 2022 they were 2.1 points apart.

Methodology

Ballots are every accepted ballot in the State Board of Elections' absentee file, posted each morning; our totals must match the State Board's own state and county count files for that morning. 2022 and 2018 come from the State Board's final files, each year lined up by its own first day of in-person early voting; a county counts as open on a day it has in-person ballots dated that day, and days with fewer than 100 counties open carry an asterisk. Party, race and age are as registered (party is registration, not a vote; Hispanic is any race), and turnout rates divide a group's ballots by its registered voters. Base, sporadic and unlikely come from the State Board's voter history: the last two general elections. 2022's final electorate is everyone in its voter history file, by party on the 2022 rolls. Districts are the ones printed on each ballot; 2022 ballots are placed on today's lines through precincts, and district lean is the 2024 statewide races. No percent change is shown when the earlier year had fewer than 100 ballots.
